CRYPTO TO MASSES

We are at Crypque working imaginatively & enthusiastically to create technology & business model related to **Crypto, Blockchain & Web 3.0**.

In **Crypque**, we believe that cryptocurrency should be within reach of every individual so that they use the **power of crypto & its related technologies**.

www.crypque.in

ABOUT US

We're a team of innovators, investors, marketers, entrepreneurs, and achievers. We aim to organize the blockchain, crypto & web 3.0 and make it simpler and beneficial for the masses.

Crypque is building a product which gives an opportunity to all crypto lovers to manage their portfolio on one platform where they can keep their crypto like an asset and also use it like a currency.

FOCUS
BUSINESS

Left to right Dr. Abhishek Bhandari, Anshit Jindal, Ankit Bhasin and Sidharth Shukla

Crypto Enthusiasts at work at Crypque Private Limited

Envisioning to change the way people view cryptocurrencies and blockchain technology in India, four quixotic tech fanatics, namely, Sidharth Shukla, Dr. Abhishek Bhandari, Ankit Bhasin, and Anshit Jindal founded Crypque Private Limited in 2022 with an objective to create an ecosystem which enables the users to use their crypto assets in day-to-day transactions like utility services payments, UPI, IMPS, P2P buying and selling, credit card payments and insurance premium payments, just like fiat currency. The quad squad has undertaken to simplify the use of crypto technology for the masses and make it accessible to everyone, providing financial freedom to millions of people with the launch of Crypque, specializing in blockchain, crypto, and web3 solutions.

Co-founder and CEO of Crypque, Mr. Sidharth Shukla, an astute and discerning professional, au fait with the nuances of the industry, is a connoisseur of the crypto-industry. He is a mechanical engineer with a passion for technology and innovation. An expert in operations, P&L oversight, multi-channel technology design and marketing, Sidharth has set up and led multiple companies to success including TradeTurtles. Co-founder and CMO Dr. Abhishek Bhandari, a zealot professional and an ardent learner completed International Business Management from New Zealand and a Post Graduation in Healthcare Administration from INLEAD, Gurugram, India. A crypto enthusiast, he was one of the very early adopters of cryptocurrency and started his own

Bitcoin mining farm, one of the biggest in Dehradun, Uttarakhand, in 2016. He is currently pursuing a Post Graduation in CryptoCurrency and Blockchain Technology from Amity University and has been interviewed by many top cryptocurrency media houses like New. bitcoin.com and Cointelegraph.com. He recently received a Doctorate in Web3 and Blockchain from World Peace Institute of United Nations.

The third co-founder as well as COO of Crypque, Ankit Bhasin, a seasoned and sophisticated professional, holds a vast experience in the corporate industry and is an expert in setting up and scaling business ventures. He has served as the Vice President of Human Resources for several multinational companies like GENPACT for a period of 18 years and is obsessed with the possibilities that crypto has to offer.

Co-founder and CFO Anshit Jindal, an adroit virtuoso and a prodigy, is a Master's in Business Administration in Finance & Marketing and holds an exemplary experience of 12 years in the Automobile & technology industry and is skilled in business planning, entrepreneurship, organizational leadership, team leadership, and business intelligence.

The young, spirited and magnificent team at Crypque, claiming to be not just another fintech company, endeavours to build an inclusive community where users can benefit from the company's innovative products as well. The Company has launched 'Tronado', their in-house token based on the Binance Smart Chain which serves utility purposes on the platforms collaborating with the Tronado blockchain ecosystem. The other two products, adding another feather in the burgeoning enterprise's cap, are the Mobicryp USDT Minting Platform and Cryp, a crypto payment solution.

The ingenious and avant-garde ideas and products ushered in by Crypque inexorably possess the potential to revolutionize and remodel the crypto industry and bring financial freedom and flexibility to millions of people, both domestically and globally in the times to come.

Crypque Private Limited

THE ONLY ONE PLATFORM YOU NEED FOR YOUR CRYPTO ASSETS AND ITS TRANSACTIONS

(L to R): Sidharth Shukla, Anshif Jindal, Ankit Bhasin and Abhishek Bhandari

COVER STORY

Crypque Private Limited

THE ONLY ONE PLATFORM YOU NEED FOR YOUR CRYPTO ASSETS AND ITS TRANSACTIONS

Fast and adaptive to the current order of the world. In order to stay on their changing trajectory, businesses need to keep a close eye on the latest trends in investment. Cryptocurrency, for instance, has become a hot topic in the world of finance. The industry has been around for a while, but it has only recently gained traction as a viable investment option. The industry has been around for a while, but it has only recently gained traction as a viable investment option. The industry has been around for a while, but it has only recently gained traction as a viable investment option.

...the industry, but with Crypque Private Limited, Sidharth, Anshif, Ankit and Abhishek want to simplify the way to the market. What's more interesting is that Crypque has also scheduled a 30% bonus structure for the staff, which will ensure the value of tokens by reducing the supply. Such a planned initiative takes us back to the time of Bitcoin and gold era, when necessary reserves were at its highest. People had enough time to understand the economy and the value of money was growing. With that being said, Crypque wants to introduce the industry's leading platform based on cloud-based architecture in partnership with global banking and software organizations. Crypque wants to support the cause of high ROI and bring forward a sustainable income stream with impressive returns. When it comes to their product, Crypque has a vision that is to be presented as a solution of exchange, P2P platform and cryptocurrency payment solution. Crypque wants both users and investors to be benefited by the broad accessibility of crypto, which aims to be the best way to hold the assets or liquidity in a single tap. In India, the scenario of cryptocurrency is at a tough spot, where there are regulations to minimize the market speculation along with multiple platforms for accessing the cryptocurrency space. Since there are several platforms, transactions cost and gas fees are also high. Crypque wants to lead the way and allow the users to consider the future opportunities and ultimately, maximizing the potential of blockchain. Sidharth Shukla, the Co-Founder and CEO of Crypque Private Limited is a professional engineer with diverse knowledge and team management applied sciences. In the past, Sidharth has worked in companies like Tech Park, where his key leadership roles took the company to great heights. His professional journey includes in areas like operations, P & L, Strategy, multi-channel technology shipping and marketing. Ankit Bhasin is the COO and Co-Founder of Crypque. He has about 20 years of experience in the corporate industry. He has led large scale operations in transaction processing for global networks. His professional expertise have helped business firms in emerging markets, by giving a step out efficient scaling business model. Ankit has worked in GENESYS for about 10 years as the Vice President of Human Resources. In Crypque, his interest has moved into helping people understand and knowledge the power of cryptocurrency and web 3.0. Ankit has a Postgraduate degree in Human Resources from IIM, and he wants to share his knowledge with us about the possibilities of the crypto world. Abhishek Bhandari, CEO & Co-Founder, has one and only degree post and that is to engage people with their absolute financial independence and diversity. He is making every step towards it Crypque is revolutionizing the foundation of crypto and blockchain-based technology. He has studied Business Management from New Zealand and has a Post Graduate from IIM, and he is the founder of Blockchain Administration. He also studied a Post Graduate degree in cryptocurrency and blockchain from AMITY, Noida. Being one of the early adopters of cryptocurrency, Abhishek started his own Bitcoin mining firm in Dehradun in 2010. Abhishek's experience provides himself and he has held multiple conferences, where he speaks

Crypque wants to support the cause of high ROI and bring forward a sustainable income stream with impressive returns. When it comes to their product, Crypque team want this to be presented as a mixture of exchange feature, P2P platform and cryptocurrency payment solutions.

(L to R): Sidharth Shukla, Anshif Jindal, Ankit Bhasin and Abhishek Bhandari
